

**Client Testimonial for Elahe Etminani**  
**Website Design Project – Malihe Mirzakhania**

Working with Elahe Etminani and her IT team on the design and development of my personal/professional website was a truly smooth and rewarding experience. From the earliest planning stages through to the final launch, the collaboration was marked by clarity, creativity, and a true attention to detail.

What impressed me most was their ability to listen deeply, understand both the technical and emotional dimensions of what I envisioned, and bring that vision to life with elegance and precision. Their approach combined aesthetics with functionality, delivering not just a beautiful site, but one that performs flawlessly across devices and platforms.

Throughout the process, the team was consistently responsive, solution-oriented, and genuinely invested in creating something meaningful. I felt heard, supported, and creatively empowered at every stage.

I am genuinely pleased with the outcome and would confidently recommend Elahe and her team to anyone seeking a thoughtful, user-centered web presence. Their blend of design sensibility, technical skill, and professional ethics truly sets them apart.

Should you wish to know more about our collaboration, please feel free to contact me:

Sincerely,

**Malihe Mirzakhania**
